

3 light opal chandelier

Birmingham, Michigan

In mid-2010 a private client commissioned a chandelier to hand over their living room coffee table. April designed and created a 3 light opal chandelier. The custom opal and transparent glass colors were chosen by the client to match their interior, as was the powder coat color finish on the steel fixture. The steel fixture was handmade to match the exact curve of the coffee table legs. The lights used were 3-35w dimmable LED bulbs.

The chandelier measures
60" w x 24" x 28"

about april wagner

April Wagner has owned and operated epiphany studios, a state-of-the-art glass-blowing studio in Pontiac, MI for over a decade. This world-class artist shows in over 300 galleries.
